## Clinical Research, Vol. VIII, 1960

### No. 1, JANUARY

- Medicine: Trade or Profession? *page 1*  
Notices, *page 3*  
Eastern Section Meeting, New York, December 1959  
Program, *page 12*  
Advance Research Reports, *page 15*  
Southern Section Meeting, New Orleans, January 1960  
Program, *page 38*  
Advance Research Reports, *page 41*  
Fourteenth Annual Meeting of the Southern Society  
for Clinical Research, New Orleans, January 1960  
Program, *page 69*  
Advance Research Reports, *page 72*  
Western Section Meeting, Carmel, Calif., January 1960  
Program, *page 93*  
Advance Research Reports, *page 95*  
Thirteenth Annual Meeting of the Western Society  
for Clinical Research, Carmel, Calif., January 1960  
Program, *page 118*  
Advance Research Reports, *page 121*

### No. 2, APRIL

- Trends in Documentation: Their Effect on Medical  
Publications, *page 151*  
Executive Secretary: Research Activity Catalyst,  
*page 154*  
Medical Education as a Concern of the AFCR, *page 157*  
Notices, *page 159*  
Current Comment, *page 164*  
National Meeting of the American Federation for  
Clinical Research, Atlantic City, May 1960

### Program, *page 168*

- Subspecialty Meetings under Joint Sponsorship of  
the American Federation for Clinical Research and the American Society for Clinical  
Investigation, *page 169*  
Advance Research Reports, *page 174*

### No. 3, OCTOBER

- The State of the Federation, *page 263*  
A.F.C.R.-A.S.C.I. Liaison Committee Report, *page 266*  
Physicians and the Ethical Drug Industry, *page 267*  
Notices, *page 270*  
Midwestern Section Meeting, Chicago, November 1960  
Program, *page 275*  
Abstracts of Papers Submitted, *page 278*  
1960 Membership Roster of the American Federation  
for Clinical Research  
Alphabetical Listing, *page 291*  
Geographical Listing, *page 337*

### No. 4, DECEMBER

- Some Principles of Comprehensive Medicine, *page 353*  
On the Delivery of Short Scientific Papers, *page 355*  
Notices, *page 358*  
Program, Eastern Section, *page 361*  
Abstracts of Papers Submitted to the Annual Meeting  
of the Eastern Section of the American Federation for Clinical Research, Bethesda, Md., January 1961, *page 364*  
Annual Author Index, *page 385*  
Annual Subject Index, *page 393*

## SUBJECT INDEX

- Acanthocytosis, defect in, 371  
 Acetyl strophanthidin toxicity, and blood pH, 181  
 Acid mucopolysaccharides, of adipose tissue, 198  
 Acidosis  
   digitalis tolerance during, 97, 186  
   metabolic, primary hypocapnia causing, 287  
   renal tubular, potassium wasting in, 235  
   respiratory  
     affecting blood ammonia, 30  
     with meningismus, diagnosis of, 137  
   transfusion, 231  
 ACTH, *see* Corticotropin  
 Adenoma  
   adrenal, cortisol production by, in vitro, 26  
   pancreatic islet cell, 24  
 Adenovirus-influenza vaccine, 221  
 Adipose tissue  
   acid mucopolysaccharides of, 198  
   response to DBI, 248  
 Adrenal  
   carcinoma, response to o, p'-DDD, 379  
   cortex, influence of salt restriction and hydrocortisone on, 84  
   function  
     in bacterial pneumonia, 222  
     pituitary stalk section affecting, in breast cancer, 87  
   hyperplasia, congenital, lack of C<sub>21</sub> hydroxylation in, 24  
   insufficiency, acetate metabolism abnormality in, 284  
   responses in the chronically ill, 76  
   steroids, potentiating smooth muscle contraction, 182  
   vein blood studies of epinephrine and norepinephrine, 83  
 Adrenocortical abnormalities, simultaneous determination of urinary 17-ketosteroids and Porter-Silver chromagens in, 109  
   carcinoma, feminizing, steroid production in and DDD therapy, 110  
   morphology, compared with clinical syndromes, 240  
   responsiveness, 82  
   steroids, delayed effect of on blood glucose, 143  
 Adrenogenital syndrome, adrenal suppression in, by prednisolone, 60  
 Albumin  
   breakdown, site of, 142  
   -<sup>131</sup>I, dextran affecting distribution and metabolism of, 34  
   infusion, effect of on portal pressure and liver blood flow, 201  
   serum, binding of thyroxine by, 379  
   space, extravascular, evidence against in edematous patients, 194  
 Alcohol, effects of on liver, 204  
 Alcoholism, chlorprothixene in, 176  
 Aldosterone  
   antagonists, 238  
   in ascites of nephrosis, 241  
   biosynthesis pathways, 373  
   response to ACTH and sodium deprivation, pituitary function affecting, 141  
   secretion  
     and arterial baroreceptors, 364  
     baroreceptor control of, 182  
   stimulating active sodium transport across isolated toad bladder, 227  
   urinary, methods for determining compared, 86  
 Aldosteronism, primary  
   rigidity of expanded extracellular fluid compartments in, 106  
   saluresis with water loading in, 115  
 Alkalosis  
   hypokalemic, anions affecting NH<sub>3</sub> excretion in, 65  
   respiratory, affecting blood ammonia, 30  
 Allantoin production, mechanism for, 198  
 Altitude, as stress to pulmonary circulation, 138  
 Alveolar pressures, method of evaluating, 67  
 Amine oxidase inhibitors, in angina pectoris, 19  
 Amino acids  
   plasma, before and after extracorporeal hemodialysis in renal failure, 235  
   requirements of older man, 144  
   urinary excretion, during controlled diet, 84  
 Ammonia  
   blood  
     effect of anticoagulants on determination of, 200  
     influence of on respiration, 256  
     respiratory alkalosis and acidosis affecting, 30  
   metabolism, renal, effect of hypoammonemia on, 89  
 Ammonium  
   acetate, effect of graded doses on brain excitability, 99  
   influence of urinary solutes on, 32

Ammonium (*Cont'd*)

- oral, tolerance, effect of l-arginine, 204
- Amphenidone, as ataractic agent in outpatients, 41
- Amphotericin, in blastomycosis, 78
- Amphotericin B, effect of on renal function, 232
- Amylase, serum, in depancreatized dogs, 199
- Anemia
  - acute hemolytic, followed by resistance to tumor transplant, 61
  - immunohemolytic experimental, 208
  - in runt disease, 214
  - induced, effect of on bone marrow treated with alkylating agents, 209
  - megaloblastic, of tropical sprue, "erythrocyte delivery" crisis in, 55
  - partially responsive to pyridoxine, 104
  - pernicious, role of erythropoietin in, 129
  - physiologic response to exercise in, 75
  - of plumbism, 52
  - post-hemorrhagic, low serum lactic dehydrogenase activity in, 132
  - sickle cell, hyposthenuria in, 211
- Anemic heart hypertrophy, deoxyribonucleic acid in, 45
- Anesthesia, bleeding volume variations under, 182
- Angina pectoris
  - amine oxidase inhibitors of, 19
  - effect of graduated exercise on, 75
  - effect of placental extract on, 183
  - isosorbide dinitrate in, comparison of methods for evaluating, 20
- Angiocardiography
  - in aortic and mitral valve insufficiency, 122
  - valvular insufficiency quantitated by, 191
- Anoxia, arterial oxygen dissociation curve in, 122
- Antacids, duration of action of, 125
- Anticoagulants, in acute inflammation reaction, 220
- Antihemophilic globulin
  - in coronary artery disease, 22
  - survival of, 369
- Antihistamine compounds, evaluation of, 282
- Antithyroid compounds, variable response to, 379

- Anuria, in acute glomerulonephritis, 233
- Aortic
  - coarctation, resection, blood pressure in, 123
  - insufficiency, effect of heart rate on left ventricular ejection in, 124
  - valve insufficiency, hemodynamics of, 122
- Arcus senilis, occupational factors in incidence of, 121
- Arginine HCl, as acidifying agent, 289
- Arlidin, hemodynamic alterations of, 43
- Arrhythmias
  - atrial, sinus node morphology and blood supply in, 185
  - cardiac, heart muscle metabolic changes during, 278
  - reserpine-induced, 122
- Arterial
  - baroreceptors, and aldosterone secretion, 364
  - circulation, extracardiac collateral, to heart, 45
  - clot lysis, with segmental profusion of fibrinolysis, 52
  - oxygen dissociation curve, application to anoxic state, 122
  - rigidity, measurement of, 184
  - unsaturation, in pulmonary embolism, 37
- Arteriosclerosis
  - coronary, serotonin-induced, 190
  - quantitative studies of, 98
- Arteriosclerotic venopathy, 191
- Arteriovenous conduction system, canine, gross morphology of peripheral distribution of, 97
- Arthritis
  - gouty, griseofulvin in, 197
  - rheumatoid, serum proteins in, 125
- Asbestosis of lungs, pulmonary mechanics in, 256
- Ascensil, hemodynamic effects of, 190
- Ascites, effect of radiothyroidectomy on, 237
- Aspirin

 continuous, 136  
 ECG and serum potassium in, 185
- extracorporeal  
 ECG in, 183  
 in renal failure, plasma amino acids in, 235  
 prophylactic, in acute renal failure, 136, 233  
 regional extracorporeal anticoagulation during, 231  
 successful intermittent, 230  
 Hemoglobin  
 H, chemical substructure of, 128  
 kinetics, with altered haptoglobin, 213  
 renal tubular reabsorption of, 230  
 serum protein binding of, 220  
 trailing, 104  
 Hemolytic susceptibility, differences among subjects with glucose-6-phosphate dehydrogenase deficiency, 18  
 Hemolytic systems, pH and properdin dependent, 19  
 Hemophilia, AHG levels in carriers, 131  
 Hemophilic plasma, detection of anticoagulant activity in, 128  
 Heparin  
 effects of on airway resistance, 253  
 intravenous, affecting blood viscosity, 104  
 Hepatic blood flow  
 estimation of, 202  
 indocyanine green in study of, 77  
 after liver operations, 77  
 Hepatic encephalopathy, response to carbon dioxide and diamox in, 196  
 Hepatic function, indocyanine green measurement of, 204  
 Hepatic release, as serum cholesterol and atherosclerosis determinant, 365  
 Hepatobiliary disorders, radioiodinated rose bengal in diagnosing, 280  
 Hepatolenticular degeneration, penicillamine for, 51  
 Hippuran, radioiodinated, in comparison of kidney function, 116  
 Histamine, protective effect of in *E. coli* endotoxin shock, 31  
 l-Histidine loading, urinary urocanic acid after, 213  
 $\text{HN}_2$ , effect of organ shielding on lethal doses of, 16  
 Hodgkin's disease  
 complement-fixing antibodies in, 102  
 nitrogen mustard therapy in, 208
- Howard test, in unilateral renal hypertension, 115  
 Huntington's chorea, 99  
 Hyaluronidase  
 effects of on human marrow, 103  
 response of choroid plexus epithelium to, 384  
 Hydrochlorothiazide  
 in acquired and nephrogenic diabetes insipidus, 225  
 antidiuretic action of, in diabetes insipidus, 382  
 dosage effects on metabolic balances, 285  
 effect on urinary sodium, potassium and chloride, 35  
 water and electrolyte excretion after, 382  
 Hydrocortisone  
 effect of on glucose excretion in renal glycosuria, 64  
 influence of on adrenal cortex, 84  
 leukocyte glycolysis suppression by, 131  
 metabolism, comparative effects of ethinyl estradiol, norethandrolone and methyl testosterone on, 243  
 Hydrodiuril, antidiuretic response to, 63  
 Hydropenia, micropuncture of renal vasa recta in, 383  
 17-Hydroxycorticosteroids, excretion of with elevated 17-ketosteroids, 249  
 5-Hydroxyindole, metabolism in carcinoid syndrome, 375  
 5-Hydroxyindoleacetic acid, inhibition of secretion by INH in case of malignant carcinoid, 30  
 Hyperammonemia, control by kanamycin enemas, 49  
 Hypercalcemia  
 hormone-induced, methotrexate in, 251  
 renal diluting ability in, 33  
 Hypercapnea, effect of on venous bed, 366  
 Hypercholesteremia, stress (swimming) inducing, 377  
 Hyperguanidemia, in renal disease, 227  
 Hyperlipemia, in pancreatitis, acute state, 368  
 Hyperoxia, and plasma iron turnover rate, 18, 212  
 Hyperparathyroidism  
 citric acid, calcium and phosphorus relationships in, 236  
 with hyperuricemia, 243  
 Hyperpyrexia, effects of induced on pulmonary hemodynamics and alveolo-

## Hyperpyrexia (Cont'd)

respiratory function, 66  
Hypersplenism, pathogenesis of, 54

## Hypertension

acute, capillary bed incrimination in, 43  
with chronic glomerulonephritis, ophthalmoscopic picture in, 73

arterial, comparison of ECG, kinetocardiogram and teleroentgenogram in, 43

drug-induced, saluresis from, 234

elevated peripheral resistance in, 180

essential, Nialamide for, 73

portal, spontaneous decompression of, 51

pulmonary, in emphysema, 190

## renal

correlation of blood pressure reduction, sodium and water excretion, and renal function after thiazide therapy, 62

## Howard test in, 115

spiroactones for, 21  
upper extremity blood pressures in, 189

## Hyperuricemia

active ribose turnover in, 58  
chlorothiazide-induced, potassium reversing, 35

with hyperparathyroidism, 243

## Hyperventilation

as early sign of gram-negative septicemia, 133  
subjective effects of prolonged, 91

## Hypoadrenotropism, 143

Hypoaldosteronuria, postoperative, after pheochromocytoma, 107

Hypocapnia, primary, causing metabolic acidosis, 287

## Hypoglycemia

adrenal response to in diabetes, 285

counter-regulatory response to, glucagon and epinephrine producing, 247

epinephrine and glucagon in, 60

insulin-induced, effects on cerebral metabolism of glucose and oxygen, 82

leucine-induced, 26

THAM inducing, 27

Hypoglycemic unresponsiveness, in renal disease, 227

## Hyponatremia

in congestive heart failure, 226, 233

relative, and hyperosmolality

as preterminal state, 232

Hypophysectomy, in juvenile diabetes, effect of on growth hormone, 376

Hypopituitarism, growth hormone in, 284

Hypoproconvertinemia, disappearance rate of proconvertin extracts in, 102

Hypoprothrombinemia, bishydroxycoumarin-induced, solubilized vitamin K<sub>1</sub> in reversal of, 22

Hyposthenuria, in sickle cell anemia and trait, 211

## Hypothermia

blood pH and blood-gas solution in, 138

left ventricular function in, 181

ventricular tachycardia affected by, 21, 187

## Hypoventilation

oxygen-induced, 90

persistent, after pulmonary artery ligation, 113

## Hypoxia

effect of on venous bed, 366

ventricular tachycardia affected by, 21

Ileocecal syndrome of leukopathic conditions, 134

Immune adherence, platelets in, 15

## Inclusion bodies

in colonic mucosa, 368

hemolysis, 104

Indocyanine green, in study of hepatic function and blood flow, 77

Indole metabolism, in malabsorption syndrome, 100

## Inflammation

cellular response to in leukopathias, 18

chemical response to, 87

Inosine, effect of on stored blood, 132

Inositol transport, relationship with renal glucose, 240

## Insulin

controlling role of liver in disposition of glucose load in diabetes, 59

effect of on lactic acid production, 144

hepatic turnover of, differences in, 26

pancreatic degradation of endogenous, 27

response of pituitary to, in vitro, 25

transporting antibody, 242

Intrinsic factor concentrate, hog (HIFC), inhibition of effect of on Co<sup>57</sup>B<sub>12</sub>

uptake of liver homo-

genate by gastric juice and mucopolysaccharides, 16

Inulin, renal clearance of, 289

## Iodide

stable, measurement of thyroid uptake of, 379

urinary, neutron activation, analysis of, 379

## Iodine

effects of on autonomous thyroid nodules, 240

metabolism, effects of pregnancy on, 140

methyl group substitution for, effects of on metabolic activity of thyroxine, 60

serum protein-bound, dilantin depressing, 376

Iodopyracet renogram, 65

## Iron

absorption, temporal relationship of iron to, 17

binding and transport of, 133

deficiency, metabolic abnormality in, 216

-dextran, large intravenous doses of, 105

metabolism, effects of chronic lead intoxication on, 52

Fe<sup>59</sup> binding by abnormal globulins, 53

heme synthesis not inhibited by, 207

incorporation, environmental influence on, 102

plasma, influence of hyperoxia on turnover of, 212

kinetics, in chronic pulmonary emphysema, 113

serial, in vitro Fe<sup>59</sup> uptake by bone marrow suspensions, 216

storage disease, DTPA in, 52

turnover, plasma, hyperoxia affecting, 18

Irradiation, marrow recovery after whole body, 17

Isohemagglutinin anti-Tj<sup>a</sup>, 55

Isoimmunization, genetically determined serum protein system related to, 370

Isoniazid, comparison of serum levels and urinary excretion of, 140

Isonicotinic acid hydrazide, inhibiting 5-HIAA excretion in case of malignant carcinoid, 30

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

Isosorbide dinitrate, in angina pectoris, comparison of methods for evaluating, 20

- Thromboembolic disease, inhibitors of plasmin-plasminogen disease in, 191
- Thymidine  
H<sup>3</sup>-, labeling of proliferating tissues and tumors with, 86  
tritiated, incorporation of into neoplastic and non-neoplastic cells, 286
- Thyroid  
activity, erythrocyte glucose-6-phosphate dehydrogenase activity related to, 214  
direct effect of on thyroid function, 247  
effects of on sulfate uptake by cartilage, 246  
effects of reserpine on function of, 60  
-digitalis antagonism, reserpine modifying, 20
- disorders  
leukocyte respiration in, 211  
tanned red cell test and and serum gamma globulin levels in, 374  
failure of antithyroid substance to prevent hormone synthesis by, 246
- function test  
in chronic liver disease, 58  
erythrocyte uptake of I<sup>131</sup> triiodothyronine as, 85  
triiodothyronine in, 378
- hormone  
biogenesis, 238  
effect of on glucose oxidation pathways, 110  
in lipid mobilization, 377  
stable iodide uptake of, 379  
-stimulating hormone, separation and concentration of from plasma, 106
- Thyrototoxicosis  
gastric secretion in, 50  
increased triiodothyronine in, 378
- Thyrotropin, clearance of from plasma, 139

- Thyroxine**  
 binding of by serum albumin, 379  
 -binding capacity, related to age, pregnancy and cretinism, 283  
 metabolic activity of affected by methyl group substitution for iodine, 60  
 serum, interaction with hormonal and chemical agents, 239  
 -thyrotropin interplay, propylthiouracil influence on, 25  
**D-Thyroxine**, and cholesterol metabolism, 81  
**Tolbutamide**  
 blood sugar affected by, 23  
 insulin-like activity in pancreatic venous blood produced by, 237  
 tolerance test, intravenous, in abnormal carbohydrate metabolism, 241  
**Tracheostomy**, influence of on ventilation in emphysema, 381  
**Transaminase**  
 serial serum, prognostic value of, 202  
 in shock, 185  
**Tranferrins**, effect of sialidase on, 372  
**Transfusion**  
 acidosis, 231  
 incompatible, prednisolone in, 210  
 platelet, repeated donor plasmapheresis in, 371  
**Transposition of great vessels**, operation for, 123  
**Treponemal antibody**, fluorescent, in immunity and treatment of syphilis, 79  
**Triiodothyronine**  
 collagen content of skin affected by, 25  
 erythrocyte uptake of in pregnancy, 110  
**[I<sup>131</sup>I]**  
 erythrocyte uptake of as thyroid function test, 85  
 sponge binding of, 243  
 uptake in erythrocyte abnormalities, 206  
 increased, in patient with thyrotoxicosis and periodic paralysis, 378  
 in thyroid function test, 248, 378  
**D-Triiodothyronine**, and cholesterol metabolism, 81  
**Triolein**, I<sup>131</sup>  
 disappearance curves of, 239  
 external abdomen radioactivity measurements of, 368  
 Tris buffer, renal effects of, 233  
**Tryptophan**  
 abnormal metabolism in non-tropical sprue, 368  
 -kynurenine metabolism, abnormalities of, 243  
 metabolism in carcinoid syndrome, 375  
**Tuberculosis**  
 alpha-2-protein changes in, 105  
 diagnosis of with heated aerosol inhalations, 283  
**Tumors**, *see* Neoplasms and tumors  
**Ulcerative colitis**  
 antinuclear globulins in, 369  
 rectal mucus in, electrophoretic and immunologic properties of, 206  
**Ultraviolet fragility test**, for erythrocytes, 103  
**Urea** accumulation in renal medulla, vasopressin augmenting, 229  
**Uremia**, cerebrospinal and serum levels of electrolytes in, 288  
**Ureteral peristaltic pressures**, and response to changing urine flow, 226  
**Uric acid**  
 levels, after desoxyribonuclease, 15  
 synthesis, measurement of rate of, 125  
**Uricosuria**, induced by 6-azauridine, 370  
**Uricosuric** and antiuricosuric drugs, salicylate effect on action of, 374  
**Urinary acid excretion**, renal mass reduction affecting, 107  
**Urinary sodium, potassium and chloride**, hydrochlorothiazide effect on, 35  
**Urine**, culture of, 133  
**Valsalva maneuver**  
 hemodynamics of, 178  
 pulmonary hemodynamics of in emphysema, 254  
**Valvular insufficiency**, angiocardiology in quantitation of, 191  
**Vapor phase chromatography**, respiratory and blood gas analysis with, 92  
**Vascular endothelium**, viral infection of, 81  
**Vasopressin**  
 glass paper chromatography assay of, 81  
 water conservation after prolonged administration of, 88  
**Vasovagal reactions**, cardiovascular dynamics of, 183  
**Vectorcardiography**, right and left atrial forces in, 96  
**Veno-atrial perfusion**, 98  
**Venom removal**, incision and suction in, 258  
**Venous capacity**, hypoxia and hypercapnea affecting, 366  
**Venous CO<sub>2</sub> tension**, mixed, relationship with pulmonary diffusing capacity, 380  
**Ventilation**  
 nonthoracic surgery affecting, 287  
 pulmonary artery and capillary pressures during, 287  
**Ventricular**  
 ejection, left, dynamics of, 46  
 enlargement, right, electrical activity of heart affected by, 20  
 excitation, in cattle, 121  
 failure, left, pulmonary function in, 42  
 fibrillation, pathogenesis of in coronary occlusion, 365  
 filling pressure, relation of cardiac output to, 73  
 function, left, in hypothermia, 181  
 hypertrophy, left, ECG in, electrophysiologic factor of, 194  
 residual volume, left, 178  
 septal defect  
 pulmonic stenosis with closed aortic root vs. tetralogy of Fallot, 22  
 reopened, syndrome of, 97  
 right bundle branch block after repair of, 96  
 tachycardia, hypothermia in, 187  
**Ventriculotomy**, left, changes in terminal ventricular depolarization after, 124  
**Viral infection of vascular endothelium**, 31  
**Vitamin A**  
 effects on calcium, citrate and phosphorus metabolism, 376  
 transport of across isolated human intestine, 126  
**Vitamin B<sub>12</sub>**  
 absorption  
 failure of resin to enhance, 16  
 gastric juice and mucopolysaccharides inhibiting hog intrinsic factor concentrate effect on, 16  
 oral mucous membrane in, 210

Vitamin B<sub>12</sub> (*Cont'd*)

bile inhibiting absorption of,  
201

-binding proteins, 213

-purification of, 219

cobalt<sup>57</sup>-labeled, advantages  
of, 208

plasma, removal of in myelo-  
proliferative disorders,  
210

relationship of to folic acid  
deficiency in tropical  
sprue, 218

Vitamin K<sub>1</sub>, "solubilized," in re-  
versal of bishydroxy-  
coumarin-induced hypo-  
prothrombinemia, 22

VonGierke's disease, enzymatic  
studies in, 83

Water conservation, after pro-  
longed administration  
of vasopressin, 88

White blood cells, *see* Leuko-  
cytes

Wilson's disease, variants of,  
206

Zinc, in blood dyscrasias, 209
